Subject: Review of Testing Protocol for Massachusetts
Importance: High

Ken, I am attaching the file of the review of testing protocol for Mass. Please feel free to make any changes, add, take away re-write etc. etc. etc. and send back to me. Betty Handy has not sent her comments concerning the total nicotine content but she is in the process of writing them. Joe made his comments and I have made the changes. Please fill in the distribution list for me. I know all the people at the meeting will get a copy but I am not sure of anyone else. Also, you were going to check out the document code for me to see if Confidential is OK or should I use another one. Thanks---by the time you, Joe and the lawyers are through with my memos I don't sound like a West Virginia Hillbilly anymore!!!!
